EDUCATION

University of Ottawa

Bachelor of Applied Science in Electrical Engineering & Management

- Awards: W26 Design Day Winner @ uOttawa

Ottawa, ON

Sept. 2025 – Jan 2030

EXPERIENCE

SWE Intern

May 2026 – Present

The Logistics Alliance Inc.

Mississauga, ON

- Designed and implemented automated data pipelines to connect disparate software systems, streamlining tariff workflows and minimizing the need for manual user input.
- Drove strategic pricing optimization and system performance enhancements through the development and deployment of AI-based predictive models.

Customer Success Intern

July 2025 – Sept 2025

The Logistics Alliance Inc.

Mississauga, ON

- Supported enterprise-level clients (Sobeys, Lindt, Kellogg's, Pepsi, Mondelez) on shipment schedules and delivery performance.
- Maintained lead times in TC Software and performed Excel-based data validation to improve reporting accuracy.

Founder

March 2023 – Present

Palace.to

Ajax, ON

- Built and scaled a resale brand to \$80,000+ in revenue; managed sourcing, pricing, inventory, and customer service.
- Developed brand strategy, negotiation skills, and digital marketing proficiency across Instagram.

Data Entry Clerk

April 2022 – June 2025

Tradeline Consulting Inc.

Toronto, ON

- Processed large datasets for IoT hardware systems; used Excel to surface trends and reduce manual errors.
- Assisted with documentation for IoT hardware assembly and performance tracking.

PROJECTS

VaultQ | TypeScript, Next.js, React, Tailwind CSS, MongoDB Atlas, Vercel

April 2026 – Present

- A sneaker reseller and collector platform that combines **market pricing intelligence, deal analysis, barcode-based vault logging, release tracking, and collection management** in a premium web/mobile experience.
- Implemented **bid-first sneaker valuation models** using StockX bid data and historical sales to generate fair-buy recommendations for **deadstock and used sneakers** while preserving reseller margin.
- Architected a **backend-centric sync and caching layer** for market/release data, plus a **barcode-to-product resolution flow** for fast sneaker logging and valuation updates.

EmotiCare | Next.js 16, React 19, Tailwind CSS 4, MongoDB Atlas, face-api.js, Vercel

Jan 2026 – March 2026

- Child emotional wellness system: webcam-based AI detects student emotions in real time using face-api.js throughout the school day.
- Developed a **privacy-first system** using facial recognition descriptors (no image storage) to identify students and track emotional trends securely.
- Designed and implemented a **teacher dashboard** for visualizing emotion patterns, identifying at-risk students, and generating reports for intervention and support.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C

Frameworks: Next.js, React, Node.js, Tailwind CSS, face-api.js, TensorFlow (basic)

Tools: Claude Code, MongoDB Atlas, Git, Vercel, Arduino, Microsoft Excel, Google Suite
